MULTISUN 252 MST INVERTER CC-CV MACHINE

The ASTEQ MULTISUN 252 MST

Provides excellent arc performance with solid wire in short circuit, globular and spray transfers, and with flux or metal cored wires in globular and spray transfer modes.

Standard features include: burn back control, built-in overload protection, environmental protection for optimum reliability harsh environments.

Machine Specifications

Input Voltage	220V/240V 1ph 50/60Hz	
Input Current	35.2A(46.2A)	34.7A(46.3A)
Insulation Class	H	
Open Circuit Voltage	56V/61V	
Duty Cycle (40°C)	60%@250A 100%@150A	60%@250A 100%@150A
Welding Current	10~250A	
Load Voltage	30V	26.5V
Protection Class	IP23	
Dimensions (L*W*H)	544*282*411mm	
Weight	25kg
